VEKTÖREL BAFFLE TAVAN  
VECTORAL BAFFLE CEILINGS

Vektörel Baffle tavanlar alüminyum veya galvaniz çelik kullanılarak farklı ebat ve ölçülerde üretilebilir. Vektörel Baffle profiller L taşıyıcı profiline bağlanan tırnaklı taşıyıcı sistemine kilitlenir. Montaj ve demontajı kolaydır. Standart renkler RAL 9016, 9005 ve 7016. Bunların dışında istenen RAL renginde ya da ahşap görünümlü olabilir.

Vectoral baffle ceilings manufactured from aluminium or galvanised steel material in several sizes. Panels are being installed on carrier profiles which are mounted on main L carriers providing straight forward installation and uninstallation. Standard colors are RAL 9016, 9005 and 7016. Also can be painted to any RAL color or wood look.

- 1- L Ana Taşıyıcı Profili / Main Carrier L Profile
- 2- Vektörel Tırnaklı Taşıyıcı Profili / Carrier
- 3- Vektörel Panel / Vectoral Baffles
